Justice Gödel Conder

Software Developer

440-781-3084   justiceconder@gmail.com   12170 Waywood Dr. Twinsburg, Ohio 44087

Profile

Software development is my passion. I'm intimately acquainted with emerging technologies and can provide invaluable information to ensure projects and products are future proof and competitive. I also understand people and can build and grow teams into highly performant development powerhouses. I'm outgoing, determined, and hungry to solve problems. Lets do great things together! Experience

PLATFORM INTEGRATION SPECIALIST / SCRUM MASTER / PARTNER   **33 MILE RADIUS**
INDEPENDENCE, OH   **JAN 2015 - SEPT 2016**

Assembled the development team and lead as Scrum master. Was responsible for scoping, chunking, and release planning for all software projects. Built native, mobile, and web, applications to automate critical business processes. Launched new commercial applications every three months. Managed all digital agency web development.

DEVELOPER / TERMINAL VELOCITY AGILE TEAM   **SHERWIN-WILLIAMS**
CLEVELAND, OH   **JUNE 2014 - JAN 2015**

Completed Scaled Agile Framework training and gained first-hand experience on what it takes to simultaneously grow multiple teams. Took leadership role on the Terminal Velocity agile team and was put in charge of leading standup meetings. Executed the emergency migration of an enterprise e-commerce website with no DB or FTP access.

DEVELOPER   **TRUTH FOR LIFE**
CHAGRIN FALLS, OH   **MAR 2013 - JAN 2014**

Introduced agile methodologies, bug tracking software, and GIT source control. Was responsible for all client-side changes to the main website and building marketing landing pages. Managed usability and cross browser testing and maintained email drip campaign lists.

DEVELOPER   **SHERWIN-WILLIAMS**
CLEVELAND, OH   **JUL 2011 - MAR 2013**

Performed maintenance tasks for the main Sherwin-Williams site and on associated partner sites utilizing a custom enterprise CMS. Created the multi-language web portal for the company's entrance into the European market.

DEVELOPER / DIGITAL STRATEGIST   **TRUFIELD ENTERPRISES**
CHAGRIN FALLS, OH   **JAN 2011 - JUNE 2011**

My responsibilities included e-publishing and marketing my clients books via custom landing pages, selling tickets online, and Twitter marketing. I created a system whereby people could get free copies of micro books in exchange for tweets and retweets.

DEVELOPER / FOUNDER   **QBIX MEDIA**
CLEVELAND, OH   **MAY 2009 - DEC 2010**

I founded Qbix Media while in college to do freelance work. I developed websites for local businesses, managed their online marketing, and social media.

Education and Certifications

Stark State College of Technology – Associate's Degree in Computer Programming and Database Design, 2009 - 2011. Graduated with academic distinction.

STMAC - Scrum Team Member Accredited Certification from International Scrum Institute

SMAC - Scrum Master Accredited Certification from International Scrum Institute

SSEAC - Scaled Scrum Expert Accredited Certification from International Scrum Institute

SCAC - Scrum Coach Accredited Certification from International Scrum Institute

Strengths

- Platform Evangelism
- Business Development
- Strong problem solving skills
- Technical Communication

- Agile / Scrum / KanBan
- IT Project Management
- Team Building & Mentoring
- The EOS/Traction Framework

- MacOS Operating System
- Application Prototyping
- Cross-Platform App Development

- Full-stack Development
- Emerging Technologies
- Platform Integration

Side Projects

- Co-founded VentureChip, a website that divided out equity in exchange for code contribution. My partner and I competed in the LaunchHouse accelerator program in 2013.

- Founded Ghost Army Software, maker of digital-agency automation software. The company was acquired 6 months after it was founded. I spent the next two years integrating the platforms and further automating the business.

- My technology blog, singularityhacker.com, has been quoted by notable websites such as ZDNet, Daring Fireball, and OSNews and frequently makes the front page of Hacker News.

- Co-founded an IT staffing agency. Placed software developers in fortune 500 companies.

- Bitcoin and cryptocurrency aficionado. I ran a mining operation in 2011 and have written a book on the subject that I'm hoping to have published early 2017.

- Published writer for 2600: The Hacker Quarterly.
